French Intelligence Activities in 4058 LSC (Czech) 20 March 1953

1 CO Reg VI — CO 66th CIC Group AFIN: Ops — 20 Mar 1953

5. The only information which has to this date been furnished directly to the French Liaison Officer by this Region consists of unclassified lists of new arrivals at Camp Valka. Occasionally there has been a minor exchange of information relative to certain individuals of mutual interest at Camp Valka. The latter type of information may be classified largely as gossip as to the relationships and personal habits of camp officials and known intelligence swindlers in the camp. No information as to CIC interests has been given. In general, CIC has received information rather than given it.

6. It is requested that this Region be furnished a statement of policy which is applicable generally to this Region's direct relations with the French Liaison Officer in Nurnberg. It is further requested that Headquarters advise whether a copy of the attached list of recruits may be given to the French Liaison Officer.
